Education Opportunities

Responsible Conduct of Research ^[1]: Have all of your clinical research trainees fulfilled the NIH's mandatory ethics training requirement ^[2]? If not, now is the perfect opportunity for them to do so. Enrollments are being accepted for *Responsible Conduct of Research*, an online course that runs from July 29th - September 13th. This course fulfills the didactic component of the NIH ethics training requirement. **The deadline to register for this course is July 14, 2019.**

This course is only offered to the UCSF community once per year, so any trainee on a NIH Institutional Research Training Grant, Individual Fellowship Award, Career Development Award (Institutional and Individual), Research Education Grant, Dissertation Research Grant or similar NIH-funded grant is encouraged to enroll by **July 14, 2019**.

To register for the course, click **here** ^[3].

UCSF Clinical Research Resource HUB's Suggested Training for Clinical Research [4]:

The HUB has published a useful checklist [5] for both onboarding and ongoing training for Clinical Research Coordinators, PIs, and other research support staff at UCSF.

iRIS Interactive Tutorials: In October 2018, we created a suite of interactive online tutorial for working in iRIS. Go to the iRIS Help website [6] (MyAccess login required) to take the tutorials.

In-service education training: Need an in-service for your department? In-Services are a great way to educate a team or department for specific topics and assure all attendees hear the same information. To request an in-service training session please fill out this form [7].

Past Classes and Slides

Preparing a New IRB Application [8]	Preparing Consent and Assent Forms and the Consent Process [9]
Submitting Modifications and Continuing Reviews [10]	IRB Introductory Training Archived Webinar (please register to view) [11] or Slides [12]
Post-Approval Event Reporting [13] and Overview of UCSF's Subject Injury Program [14]	Findings From Routine Site Visits Conducted by the Quality Improvement Unit (QIU) [15]
Recruitment: Ethics, Regulations and Practical Solutions [16] and Technology and Best Practices for Recruitment [17]	

Note: The IRB was formerly known as the Committee on Human Research (CHR), which is the term used in some of these presentations.
