PRINCIPAL INVESTIGATOR STATUS REQUEST

University policy defines Principal Investigator (PI) Status as the eligibility to submit proposals for research, training, or public service contracts or grants to extramural agencies, subject to approval of the appropriate department chair/ORU director. Individuals who submit applications to the Committee on Human Research and the Committee on Animal Research must also hold PI Status.

Academic appointees in the following title groups are eligible to submit proposals for extramural support by virtue of their appointment, provided that they have received the approvals mentioned above: 1) Academic Senate Members, including Emeriti; 2) Appointees salaried at 50% of full time or more in the ladder ranks, in residence, adjunct, clinical or research series; or 6) Appointees in the Librarian series.

Individuals who are not eligible for PI status by virtue of their appointments must be approved for PI status when submitting contract and grant proposals and/or applications to the Committees on Human and Animal Research. Request PI Status with this form. This completed form must be submitted with the contract or grant proposal and/or with the application to the Committee on Human or Animal Research, and a copy of this form should be included in the project file.
